

**March on
20 October for a
future that works**

I am a public employee. I am not the problem. I am a nurse, a crime fighter, a teaching assistant, a paramedic, a social worker. I keep you healthy and safe. I educate your children. I help those among us who need it most. I did not cause the economic problems we have today. I did not crash the economy with 'unregulated derivatives' and 'sub-prime mortgages'. I did not accept bailout money and then give myself multi-million pound bonuses. I get up in the morning and go to work. I live within my means. I work for the community.

I am not the problem.
