

**GRINCHY SUNAK- PAY  
US, DON'T BETRAY US**

# MERRY CHRISTMAS & HAPPY NEW YEAR

This year has been hard for us all but particularly for public sector workers.

At UNISON North West, we appreciate everything you do as a public sector worker.

Unfortunately the same can't be said for Grinchy Sunak who has gifted public sector workers a pay freeze for Christmas this year.

In March, the Govt published its first key-worker list which included school staff, care workers & local government workers.

You have worked through the pandemic providing essential services. You have put yourself & your family in harm's way to help others.

Yet in November, Chancellor Rishi Sunak announced a public sector pay freeze was “necessary”.

But investigations have shown that the Govt have given out billions in contracts to companies & consultants with connections to ministers- in many cases failing to deliver on time, or to necessary quality or even at all.

If there is Govt money to fund cronyism & failure then there is Govt money to fund a decent pay rise for public sector workers on the front-line of the pandemic response.
